NZQA Level 6 Procurement Qualification

The only practical NZQA Procurement Qualification - designed specifically for busy public sector procurement professionals.

Who is this qualification for?
The qualification is relevant for anyone involved in government tendering or procurement planning, in a wide range of sectors:

• Public Sector Procurement Specialists and Planners
• Procurement Managers
• Government Tender Evaluators
• Consultants and advisors
• NZTA Tender Evaluators*

*This qualification is required for at least one member of the Tender Evaluation Team for all NZ Transport Agency procurements valued over $200,000.

Prerequisites:
There are no formal prerequisites; however to undertake this qualification, you should:

• have experience and current involvement in tendering
• be self-motivated and disciplined to undertake self-directed personal development activities for assessment, and
• have strong oral, written, inter-personal communications and mathematical skills.

What skills does it cover?
• Procurement planning
• Preparing RFx documents (RFTs, RFPs, etc)
• Evaluating Tenders
• Applying legal and ethical requirements to procurement, including Government Rules of Sourcing

How is it assessed?
You will start with attendance at the two-day Clever Buying course and completion of some of the assessment while on the course. After the course, you’ll complete five assignments - mostly based on a workplace activity (or a scenario provided by your trainer). You’ll be given one-to-one mentoring and feedback throughout your training and assessment period.

• Assignment 1 - Prepare a procurement plan, based on a real-life example or a scenario provided by your assessor
• Assignment 2 - Prepare RFx documentation based on your procurement plan
• Assignment 3 - Desk research assignment on applying Government Rules of Sourcing, ethical and legal requirements to your procurement activities
• Assignment 4 - Prepare a complete workplace example of a procurement plan and RFx document
• Assignment 5 - Give evidence of two tender evaluations, including preparing detailed Tender Evaluation Reports

Assignments 1 - 4 generally take 1-2 days to complete. Note that you need to complete at least one assignment every three months. Depending on your role at work, you may be able to complete some assignments as part of your job. However you should be prepared to complete some assignments outside work hours.

Can I use my previous experience for the assessment?
Yes, that experience will be valuable. You can use past examples, however in most cases, you will need to complete the assignments using the templates provided so that you meet all of the NZQA assessment requirements. That may involve some re-work or additional analysis work based on your past examples.

What are the costs?

$1400 + GST pp

In-house procurement training also available – POA

"Best course I’ve been on for years! Practical and action-packed, relevant for newbies as well as experienced evaluators. A valuable blend of:
• NZ Government’s Procurement Principles, Rules of Sourcing and Tools;
• proven NZTA methods,
• international best practice, and
• practical techniques that reduce legal risks.
100% relevant to tendering in New Zealand.

GOVERNMENT AGENCY PROCUREMENT MANAGER"
